Therefore, any lane closures would have to be scheduled between 7:00 PM and 7:00 AM. All expenses for lighting or additional traffic control devices that would be required for a lane closure shall be borne by the contractor.

I. Existing Utilities:

Existing Utilities are not shown on the attached figures. It is the contractors' responsibility to have utilities located within the corridor and notify the Engineer or designated representative of any conflicts.

Upon request from the Commission, the Contractor shall provide the Commission with certificates of insurance evidencing the required coverage and that such insurance is in effect.

- a. In the event the successful Contractor fails to deliver the material within the time specified, the Department and the public will sustain damages because of such delay in delivery, the exact extent of which would be difficult to ascertain, and in order to liquidate such damage in advance it is agreed that the sum of one-hundred dollars (\$100.00) per day, per item, for each assessable calendar day on which the delivery has not been completed, is reasonable and the best estimate which the parties can arrive at as liquidated damages, and it is therefore agreed that said amount will be withheld from payments due the Contractor or otherwise collected from the Contractor as liquidated damages.
- b. Saturdays, Sundays, holidays and days whereas the Department has suspended work shall not be assessable days.
